WORK EXPERIENCES

Freelance
WEB DESIGNER & DEVELOPER
Montréal, Canada
2024 to present

- Worked on various projects, delivering full-stack development and UI/UX design for clients in diverse industries.
- Developed websites and applications with a focus on user-centered design and cross-platform compatibility (iOS, web).
- Designed and developed a brand identity and responsive website for a restaurant.
- Engineered a custom online radio platform with an integrated content management system, enabling real-time playlist updates and improving client's operational efficiency.

Solotech Inc.
UI/UX designer
Montréal, Canada
2022 to 2024

- Gathered and evaluated user requirements, working closely with clients and developers to ensure a seamless user experience.
- Created UI mockups and interactive prototypes, using Figma and Miro to illustrate client requirements.
- Designed user-friendly graphical interfaces, following best practices in interaction design and ensuring accessibility.

MindGeek
JUNIOR SOFTWARE DEVELOPER
Montréal, Canada
2021 to 2022

- Developed features for the CMS in the Trust and Safety branch using Symfony to enhance content moderation.
- Consistently met sprint goals resolving stories and bugs, contributing to our agile development team.
- Managed large datasets and microservices architecture, collaborating with cross-functional teams resulting in improved system reliability

Freelance
WEB DESIGNER & DEVELOPER
Montréal, Canada
2019 to 2022

- Designed and developed websites for various clients, ensuring optimal UX across different platforms (iOS, web).
- Created and maintained an e-commerce and online reservation system for a campsite.
- Developed a custom Discourse plugin for a psychological help forum, improving user reporting features.

EDUCATION

Concordia University
BACHELOR IN SOFTWARE ENGINEERING
Montréal, Canada
2016 to 2021

KEY PROJECTS:
- **Campus Map Mobile App** : Designed the graphical interface, delivering an intuitive and accessible experience across devices. Developed front-end components and implemented unit tests.
- **SCM Maintenance System** : Led a team of 10 as Scrum Master, developing an auditing system using Python, Angular, and TypeScript with a focus on optimizing UI/UX design.
